The open letters were from the National Wildlife Refuge Assoc as far as I think they were just looking to see if DOI or PWS was going to have any direction or information on this. I will respond that if they are looking to get the word out to their members they can get any additional details from ONMS. Thanks for the reply.

Thank you - this is the first time I've seen this. However, I don't see that it particularly affects us - what type of questions are you getting? I can certainly forward the notice to the review team if that would resolve them, if not can ask NOAA for more information.

Is he or will there be any notification from DOI on him? I've already been asked about it.
Thank you.

Thank you
Pete
